

- I** On art, science, and the conservation of subterranean ecosystems  
*Stefano Mammola, Jagoba Malumbres-Olarte, Ilaria Vaccarelli, Veronica Nanni, Adrià Bellvert, Ivan Jarić*
- 21** A century later: Rediscovery and range expansion of *Typhlocaris lethaea* Parisi, 1920 (Crustacea, Decapoda) in subterranean karstic waters of Benghazi, northeastern Libya  
*Rosario Ruggieri, Houssein Elbaraasi, Mohammed H. Al Riaydh, Abdelsalam Elshaafi, Awad Bilal, Fathi Salloum, Mohamed Abdelmalik*
- 31** Isotopic variability of  $\delta^{13}\text{C}$  and  $\delta^{15}\text{N}$  signals in cave systems: insights from the blind tetra *Astyanax mexicanus*  
*Jorge Hernández-Lozano, Fernando Córdova-Tapia, Ramses Miranda-Gamboa, María de Lourdes Vázquez-Cruz, Carlos Garita-Alvarado, Norman Mercado-Silva, Claudia Patricia Ornelas-García*
- 49** On the troglobitic velvet worm *Speleoperipatus spelaeus* Peck, 1975 (Onychophora, Peripatidae): assessing the status of a Critically Endangered Jamaican invertebrate  
*Gonzalo Giribet, Pooja A. Anilkumar, Abbio Goodwin, Ronald S. Stewart, Claud A. Watkis, Damion Whyte, Gustavo Hormiga*
- 61** Endless forms most wonderful: Four new cavernicolous planthopper species (Hemiptera, Fulgoromorpha, Cixiidae and Meenoplidae) from the Canary Islands  
*Hannelore Hoch, Heriberto López, Manuel Naranjo, Dora Aguín-Pombo, Pedro Oromí*
- 103** Seasonal abundance of the Monte Albo cave salamander *Speleomantes flavus* in Italy  
*Luca Coppari, Enrico Lunghi*
- 115** Three new cave-dwelling species of *Tyrannochthonius* Chamberlin, 1929 (Pseudoscorpiones, Chthoniidae) from Guangxi, China  
*Jianzhou Sun, Xiangbo Guo, Feng Zhang*
- 135** *Baeticoniscus carmonaensis* sp. nov. a new Isopod found in an underground aqueduct from the Roman period located in Southwest Spain (Crustacea, Isopoda, Trichoniscidae)  
*Julio Cifuentes, Enrique Peña Pérez, Álvaro Luna*
- 147** *Amphicutis stygobita* (Echinodermata, Ophiuroidea, Amphilepidida, Amphilepididae), a brooding brittle star from anchialine caves in The Bahamas: feeding, reproduction, morphology, paedomorphisms and troglomorphisms  
*Jerry H. Carpenter*
- 197** A biofilm micro-community dominated by the diatom *Campylodiscus neofastuosus* (Surirellales) binds detritus used as food source for rare brittle stars endemic to two Bahamian caves  
*Miriam Steinitz-Kannan, Jerry H. Carpenter, Mark A. Nienaber*

#### AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript *only* through the online submission module at <http://subtbiol.pensoft.net>. In case of difficulties with the submission procedure, please contact [subtbiol@pensoft.net](mailto:subtbiol@pensoft.net). Full text of author guidelines is available at: <http://subtbiol.pensoft.net/about#AuthorGuidelines>

#### EXCERPTS FROM THE GUIDELINES

**BODY TEXT.** All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

**WEB (HTML) LINKS.** Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the **http://** portion of the address.

**CITATIONS WITHIN THE TEXT.** Before submitting the manuscript, check each citation in the text against the **References** to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: (Smith 1990) or (Smith et al. 1998; Brock and Gunderson 2001; Felt 2006).

**REFERENCES.** It is crucial to properly format the references, because all references will be linked electronically as much as possible to the papers they cite. For all references, list all authors. You can include a **DOI** number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

**Published Papers:** Polaszek A, Alonso-Zarazaga M, Bouchet P, Brothers DJ, Evenhuis NL, Krell FT, Lyal CHC, Minelli A, Pyle RL, Robinson N, Thompson FC, van Tol J (2005) ZooBank: the open-access register for zoological taxonomy: Technical Discussion Paper. Bulletin of Zoologi-

cal Nomenclature 62: 210-220.

**Accepted Papers:** Same as above, but "In press" appears instead the page numbers.

**Electronic Journal Articles:** Mallet J, Willmott K (2002) Taxonomy: renaissance or Tower of Babel? Trends in Ecology and Evolution 18 (2): 57-59. doi: 10.1016/S0169-5347(02)00061-7.

**Paper within conference proceedings:** Orr AG (2006) Odonata in Bornean tropical rain forest formations: Diversity, endemism and applications for conservation management. In Cordero Rivera A (Ed) Forest and Dragonflies. Fourth WDA International Symposium of Odonatology, Pontevedra (Spain), July 2005. Pensoft Publishers, Sofia-Moscow, 51-78.

**Book chapters:** Mayr E (2000) The biological species concept. In: Wheeler QD, Meier R (Eds) Species Concepts and Phylogenetic Theory: A Debate. Columbia University Press, New York, 17-29.

**Books:** Goix N, Klimaszewski J (2007) Catalogue of Aleocharine Rove Beetles of Canada and Alaska. Pensoft Publishers, Sofia-Moscow, 166 pp.

**Book with institutional author:** International Commission on Zoological Nomenclature (1999) International code of zoological nomenclature. Fourth Edition. London: The International Trust for Zoological Nomenclature.

**PhD thesis:** Dalebout ML (2002) Species identity, genetic diversity and molecular systematic relationships among the Ziphiidae (beaked whales). PhD thesis, Auckland, New Zealand: University of Auckland.

**Link/URL:** BBC News: Island leopard deemed new species. <http://news.bbc.co.uk/3.VI.2008> [accessed 3.VI.2008]

**CITATIONS OF PUBLIC RESOURCE DATABASES:** It is highly recommended all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version numbers, if appropriate). Accession numbers should be provided in parentheses after the entity on first

use. Examples of such databases include, but are not limited to:

- Zoobank ([www.zoobank.org](http://www.zoobank.org)),
- Morphbank ([www.morphbank.net](http://www.morphbank.net)),
- Genbank ([www.ncbi.nlm.nih.gov/Genbank](http://www.ncbi.nlm.nih.gov/Genbank)),
- BarCode ([www.barcodinglife.org](http://www.barcodinglife.org))

Providing accession numbers allows linking to and from established databases and integrates your article with a broader collection of scientific information. Please list all accession numbers directly **after the References**.

**INTERNATIONAL CODE FOR ZOOLOGICAL NOMENCLATURE. ZooKeys** will publish papers only strictly following the rules of the 4th edition of the *International Code of Zoological Nomenclature*. Each first mentioning of an animal species name within the text must be provided with author(s)' name(s). Year of publication of animal species is recommended to be given in taxonomic revisions with providing full referencing of original description in the list of references.

**OPEN ACCESS FEES.** Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee of EURO 15 per page for papers of less than 100 printed pages. Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Open Access Publication Fees are usually covered by institutional funds and grants. Discounts/waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, postgraduate students, especially in case of exceptionally good manuscripts.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

**PRINTED VERSION.** Offprints and printed issues of the journal can be purchased additionally (see journal's website). For standing orders/subscriptions please contact the Managing Editor.

**Editorial Board:** <http://subtbiol.pensoft.net/board>

#### Focus and Scope

**Subterranean Biology** is an international journal published by Pensoft on behalf of the International Society for **Subterranean Biology** [SIBIOS-ISSB] for the publication of original and significant contributions on all aspects of subterranean life.

All content is Open Access distributed under the terms of the *Creative Commons Attribution License*, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.
