

Subterranean Biology

Vol . 10

Contents

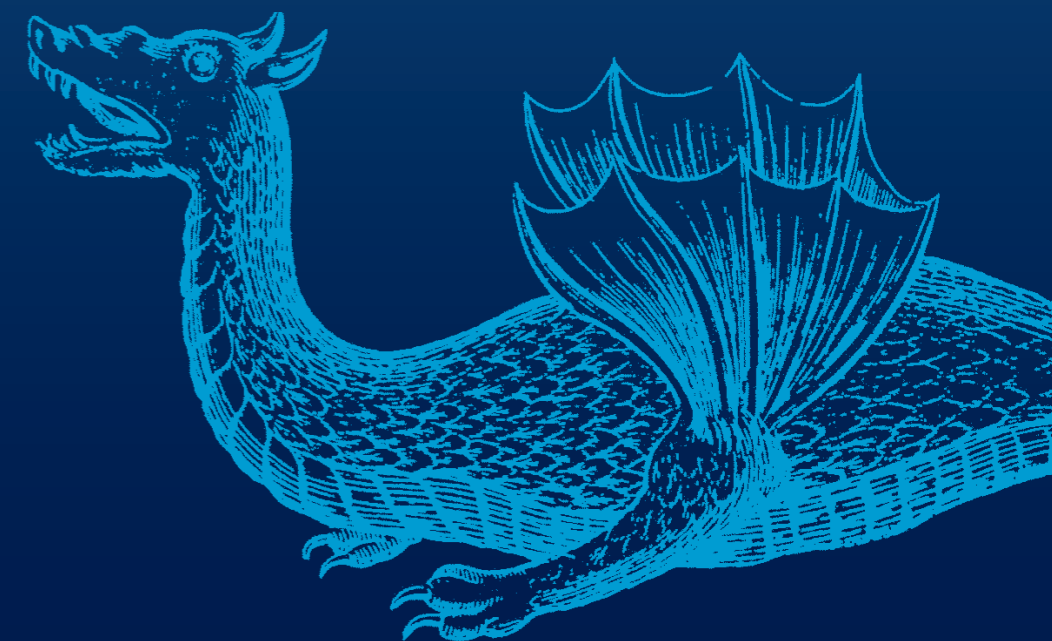

- Nicole COINEAU, Claude BOUTIN, Malvina ARTHEAU** - Origin of the interstitial isopod *Microcharon* (Crustacea, Microparasellidae) from the western Languedoc and the northern Pyrenees (France) with the description of two new species p. 1
- Camile Sorbo FERNANDES, Maria Elina BICHUETTE** - Shape variation of *Aegla schmitti* (Crustacea, Decapoda, Aeglidae) associated to superficial and subterranean stream reaches p. 17
- Valerio KETMAIER, Claudio DI RUSSO, Mauro RAMPINI, Nadine BERNHARDT, Ralph TIEDEMANN, Marina COBOLLI** - Molecular divergence and evolutionary relationships among Aemodogryllinae from Southern China, Laos and Thailand (Orthoptera, Rhaphidophoridae) p. 25
- Harry SMIT** - Three new hyporheic water mite species from Australia (Acari: Hydrachnidia) p. 37
- David C. CULVER, Peter TRONTELJ, Maja ZAGMAJSTER, Tanja PIPAN** - Paving the Way for Standardized and Comparable Subterranean Biodiversity Studies p. 43
- Ana Sofia P. S. REBOLEIRA, Fernando GONÇALVES, Pedro OROMÍ** - Literature survey, bibliographic analysis and a taxonomic catalogue of subterranean fauna from Portugal p. 51
- Obituary: Lazare Botosaneanu 'Naturalist' 1927 – 2012 p. 61
- New taxa described in this volume p. 75
- World karst science reviews p. 77
